The Best Way To "Slip-Proof" Your Stairs & Walkways

The unique traction bumps provide a slip-proof surface that outlasts sandpaper tape and non-slip paints.

A PERMANENT SOLUTION FOR AN ONGOING PROBLEM

Slipping hazards
due to ice, water or sand
present dangerous risks.

Ideal for:

Construction • Commercial • Retail • Schools
Public Attractions • Stadiums • Marinas
Beachfronts • Boardwalks • Industrial
Resorts • Hotels & Motels
Residential Properties • Municipalities

Installs On:
Concrete • Wood • Aluminum

Indoor/Outdoor

- Walkways
- Stairs
- Decks
- Ramps
- Porches

A COST AND TIME-SAVING ALTERNATIVE

- **100% Aluminum**
- **Easy To Install**
- **Lasts For Years**

Available in plain aluminum, powder-coated black or safety yellow

Aluminum non-slip treads and stair nosings are easy to install in wood, concrete or metal floors. They are ever present and are able to stand up to snow, rain, and typical cleaning materials. They never rust, and never require additional maintenance.
