

AMBULANCE TRAK SYSTEMS

HEAVY DUTY SUPPORT

The Ambulance Trak® system from Handi-Ramp® —a set of portable gurney tracks (or channel ramps) designed to be convenient and easy to use. Traks are manufactured from durable, extruded aluminum with a non-skid surface for decades of useful service. The Ambulance Trak line includes the most durable track products available on the market today. These systems will easily accommodate loads of up to 1500 lbs per pair.

EASY TO USE

All Handi-Trak systems feature a 6-3/4" width (inner dimension). A unique folding design makes these traks easy to maneuver and store.

PRODUCT FEATURES

- * 2 Tracks
- * 2 Spacer bars
- * Convenient folding traks
- * Non-skid surface
- * Aluminum construction preventing deterioration
- * Easy to carry handles (optional)
