

PONTOON ACCESSIBILITY PRODUCTS

Handi-Ramp's Aqua Sidekick Ramp (HR-ASR)

The SideKick is a handicap access ramp that is easily stored at the side door entrance of your pontoon boat, improving the boarding experience for anyone requiring special assistance. Its compact design helps the Sidekick blend into the pontoons overall appearance and the wide, skid resistant aluminum platform offers easy and safe access both when boarding and returning to the dock. Due to a simple two-piece construction, the Sidekick™ is easily installed and conveniently stored when not in use.

Product Features:

- 30"W x 36"L
- Handicap accessible
- All-aluminum construction
- 3-bolt easy mounting system
- 1-year warranty

Handi-Ramp's Aqua Ramp II (HR-ARII)

The AquaRamp II with its new lightweight (34lbs) ramp and compact design is easy to install and makes boarding a pontoon safe and easy. By providing non-skid surfaces Handi-Ramp is put durability and safety first by allowing easy access for everyone, especially children, seniors and pets.

Product Features:

- 1/4" aluminum mounting brackets
- 30" wide non-skid aluminum surface
- 2' raised safety rail on each side.
- 30"W x 78"L
- 1-year warranty

HANDI-BOAT RAMPS

Handi-Ramp®

Handi-Ramp's Boat, Pontoon, and Personal Watercraft Ramps

Handi-Ramp's shore ramps are the affordable way to own high quality, easy-to-assemble and use, aluminum shore docking. For all personal watercraft and many boats and pontoon boats, they are the perfect alternative to traditional PWC lifts and boat lifts. Even the use of boat docks becomes optional.

HR-750

Handi-Ramp's newest model, the 750 is the most affordable shore docking system. It combines durable, rust free components with all the standard features you've come to expect from the leader in shore docking and is the ideal model for smaller fishing, sail and row boats.

- 18' overall length
- 1,100lb. winch with a 20-ft. strap
- 12 non-marking, polyurethane "donut" rollers
- three winch height adjustments
- Two rail width settings
- 9' Extensions and Leg Kits available

HR-1200

This versatile, adjustable model fits small watercraft up to 1200 lbs, from sailboats to Jon boats to small V-hull and flat-hull fishing boats and comes with an easy-to-assemble kit complete with ground anchoring system.

- 18' overall length
- 9 foot add-on sections available
- Rail width adjusts from 24" to 40"
- 16 polyurethane "donut" style rollers
- Standard 1700-lb. winch with 25' strap with option to upgrade

HR-2000

Handi-Ramp's heavy-duty model handles boats up to 2000 lbs. and is the perfect replacement for cumbersome, in-water lifts. Typically used for 16' to 18' fishing boats, jet boats, etc. it comes with an easy-to-assemble kit which includes a ground anchor system. Tilting axles, each with two extra-wide urethane rocking rollers, gently cradle any boat hull.

- 18' overall length
- Optional 8' 7" extension available
- Standard 1700-lb. winch with 25' strap with option to upgrade

Handi-Ramp's Pontoon Watercraft Ramp (HR-Pontoon)

Handi-Ramp's docking system handles pontoons up to 2000 lbs. with 18" to 26" (round only) diameters. With rail adjustments from 66" to 82" this ramp also includes 52 polyurethane "donut" style rollers, which mount anywhere along rails. An easy to assemble kit including ground anchor system is also available.

- 2,000 lb. weight capacity
- 9 foot add-on sections available
- Standard 1700-lb. winch with 25' strap with option to upgrade

Handi-Ramp's Personal Watercraft Ramp (HR-PWC)

Glide easily in and out of the water in just seconds without scratching your craft's hull with Handi-Ramp's Personal Watercraft Ramp. Lightweight, portable and economical, the ramp makes getting on and off the water part of the fun! Adjustable rail spacing will handle any personal watercraft.

- 1,000 lb. capacity
- 54 lbs
- Overall length of 11 feet
- Extra 8ft.-long section available
