

CURB RAMPS AND WHEELRISERS

Handi-Ramp's Auto Curb Ramp

The Auto Curb Ramp is designed and manufactured by Handi-Ramp, to provide instant access at curbs. Portable by design, these ramps are versatile and can be placed at a location temporarily for a special event or until a construction crew can be scheduled to create permanent access.

Designed as a temporary solution to help ease automobiles over curbs, the Auto Curb Ramp allows access without having to construct expensive and permanent curb cuts. Great for auto shows, festivals, and temporary event parking lots, these ramps weigh only 35 pounds a piece making them easily portable with a weight capacity up to 12,000 lbs. Standard heights for these ramps are 4", 7", and 10" however custom sizes and capacities are also available.

**For Cars, Light Trucks
& Other Loading Applications**

Handi-Ramp's Wheelrisers

Handi-Ramp's Wheelrisers allow trailers to be positioned properly above any dock for more efficient loading. With widths of 18" and 24" and lengths to accommodate single, dual, or tandem axle trailers, we can find a wheel riser to best suit your needs. Wheelrisers can remain portable or be permanently installed to your loading dock.

Aluminum Wheel Risers (30,000 lb. capacity) – Cutouts for lifting by hand are standard features however tabs are available in place of cutouts at no extra charge.

Steel Wheel Risers (40,000 lb. capacity) - Features 4 tabs with 9/16" holes for anchoring, however fork lift pockets in place of tabs are available at no extra charge.

**Lightweight and Heavy Duty
Available in
Aluminum or Steel**

Handi-Ramp's Car Ramps

Handi-Ramp's Car Ramps and Heavy-Duty Trailer Ramps are a heavy duty, high capacity ramp that can be used for most common loading applications. Made from lightweight aluminum these ramps are loaded with high quality features and are perfect for loading cars or trucks onto car trailers, loading skid loaders, large industrial tractors, or for other heavy machinery.

Standard sizes are available for quick shipment however we are able to manufacture any length, width, or weight capacity you may require for your particular loading situation.

These ramps are the strongest and lightest heavy duty ramps on the market.

Ramp Features

- Four heavy duty ramp attaching lip choices
