

CONCRETE DECK RAMP SERIES™

The Handi-Concrete Deck Ramp System from Handi-Ramp® is a great solution for **ADA compliance** at homes, offices, classrooms and businesses. These tough, durable ramp systems look and feel permanent, but they are modular and can be relocated. This system uses a heavy-duty steel tube frame and a concrete panel surface. The result is the look and feel of a poured concrete ramp but at a much lower cost.

INSTALLATION

The Concrete Deck Ramp System is designed to fit your specific application. Ramp sections and platforms simply bolt together. The adjustable legs allow for installation on an uneven surface and makes leveling easy.

Handrails bolt onto the steel frame of the ramp system. A wide variety of handrail options are available to meet all federal and local building code requirements.

Features Of the Concrete Deck Ramp

- A cost effective investment for a ramp system.
- Custom designed to meet **your** specific needs.
- Complies with ADA, ANSI and BOCA standards.
- Can be designed to make modular class rooms, modular offices, churches and other public building ADA compliant and wheelchair accessible.
- Looks and feels permanent, but is designed to be relocated with a portable structure.
- Ramp systems are designed at a 1:12 Ratio (ADA).
- This ramp system is designed to be resistant to the following: water, freezing/thawing and fire.
- Available with non-slip epoxy traction surface.

TECHNICAL DETAILS AND COMPLIANCES

- Standard width is 48 inches, with an almost unlimited number of custom widths available.
- Length to be determined by rise and location.
- Weight capacity of 2000 lbs. (250 lbs. per sq foot)
- Additional components include: Turning or resting platforms, stairs and handrails designed to meet your specific needs
- Meets or exceeds all Americans with Disabilities Act (ADA) requirements.
- Complies with Uniform Federal Accessibility Standards.

With over half a century of experience in designing access solutions, Handi-Ramp® knows that **each** ramp application is unique and may require some customization. Our design team is ready to work with you to meet your specific needs. Call us toll-free at **1-800-876-RAMP (7267)** or visit us on the Web at <http://www.HandiRamp.com>.
