

TRAINING YOUR PET

Some animals will take to the Pet Ramp immediately. For those that don't, we suggest you put the pet ramp flat on the ground & walk your pet over it. A reward placed on the pet ramp also helps, and you might try feeding him/her on the ramp once or twice. When you raise the pet ramp, a dab of cheese whiz or your pet's favorite treat placed towards the top of the ramp also works the first time.

The first time up the pet ramp, take your animal by the collar & lead him/her to the reward. You'll only need to do this once or twice. It is also a great reward to take your pet for a ride after he/she has successfully entered your vehicle.
