

ACCESS SOLUTIONS

Make your Sprinter van work for you
This excellent road vehicle only gets better when teamed with the appropriate ramp system saving you time and money. With good fuel economy and a large capacity this high ceiling vehicle and ramp will become one of the most valuable members of your team.

Handi-Ramp's Sprinter Van Ramp is a cost effective way to increase the usability of the Sprinter Van.

Increased Flexibility

The Sprinter Van Ramp increases the flexibility of your Sprinter Van as a delivery or service vehicle. The ramp enhances the accessibility and ease of entering and exiting the Sprinter van when loading and unloading cargo.

Ramp Options

Sprinter Van Ramps can be mounted in either the rear door or in the side door and come in a variety of widths. They take up less than 1' of cargo space and can be custom made to fit any specific need.

PRODUCT DETAILS

Easy Lifting

A nice feature of the Sprinter Van Ramp is the assisted lifting mechanism that enables one person to lift the ramp back into place after use with minimal effort reducing injuries, fatigue and package handling.

Custom Applications

Only your creativity can limit the possibilities. Ramps can be constructed to meet any specific need and can be custom designed at any length or width. Some of our recent custom Sprinter Van Ramps applications include box trucks and trailers.

Potential Uses

HVAC
Deliveries
Plumbers
Electricians
Lawn and Garden Maintenance
Equipment Handling
Dog Shows

Additional Sprinter Van Ramp Features

- Welded handles on both sides of the ramp for a firm, safe grip
- Lateral Restraint System included to minimize ramp motion in transit
- Load Capacity: 1200 Lbs. (with supporting, adjustable center leg)
- Load Capacity: 750 Lbs. (NO supporting center leg)
- Dual springs and shocks
- Ramp width: 45" or 36"
- Ramp length: 10 feet
- Height (ramp in upright position): 61 inches (bottom of mounting plate to top of hinge)
- Mounting plate width: 49 inches or 40 inches (across van)
- Mounting plate depth: 12³/₄" (front to back of van)

Our unique shock and spring loaded design allows the Sprinter Van Ramp to be easily folded or unfolded by one person and requires minimal effort.
